

## Hints for practising at home

Numbers are all around us and you can easily practise them when you're doing daily tasks.

- say the digits out loud to yourself in Spanish when you're making phone calls
- read out car numbers when you are out for a walk or at the bus stop
- say the distances from road signs when you are in the car
- say the prices in Spanish in your head as you go round the supermarket

Practice using the directions you've learned by imagining you're directing a Spanish-speaking visitor to places in your town or village.
